Private Cremation

A private cremation will allow your pet to be cremated in their own box and during their own scheduled time. We typically perform the cremations during the night time hours to allow time for final decisions to be made by the family. All cremations include a paw print, nose print, hair clipping in addition to an earth friendly urn.

Communal Cremation

Pets who are planned to be a part of a communal cremation are all cremated together. Each pet will have a clay paw print and ink prints taken prior to the cremation and are available for the family by mail. With communal cremation, the family doesn't receive the remains of their pet. Instead the remains are scattered by our company.
